Only the listed click references will change. The old relationship target stays untouched so unselected actions keep their behavior.

Return

#6 · Module B overview · ID 261 · Whole shape · Shape ID 3 #1 · Workshop menu · ID 256 → #5 · Module B menu · ID 260

Return in text

#7 · Practice · ID 262 · Text run · Shape ID 5 #1 · Workshop menu · ID 256 → #5 · Module B menu · ID 260

Return

#8 · Module B reflection · ID 263 · Whole shape · Shape ID 3 #1 · Workshop menu · ID 256 → #5 · Module B menu · ID 260

Out-of-scope master/layout actions: 0

Supported scope

Edit only explicit click jumps to a named slide in the same deck. Slide order, shapes, text and media remain unchanged.

Relative actions, hover, custom shows, Zoom, and master/layout actions are outside editing scope. Native PowerPoint behavior and visual fidelity are not certified.

Files stay on this device with no automatic saving. External links are never opened. Closing the page discards imported data.
